FDD Abstract of [REDACTED]

REORGANIZATION OF DIA MASCHINEN (5 pp; German; undated)

25X1X [REDACTED]

This 5-page ^{printed} ~~photostated~~ document furnishes the following information on the re-organization of the DIA (Intra-German and Foreign Trade Agency) for "achinery.

Effective 1 January 1952 the DIA for "achinery ^{was split into three parts:} ~~was reorganized as follows:~~

1. DIA for "achinery (director: Liebsch), with the following subdivisions:

- a) Heavy machinery (divisional director: Heinrich)
- b) Machine tools (divisional director: Enkelmann)
- c) Textile machines (divisional director: Vielitz)
- Import, including Intra-German trade (divisional director: Kersting)

2. DIA for Chemical Equipment (director: Thomann), with the following subdivisions:

- a) Installations and equipment for the chemical industry and for the food and beverages industry (divisional director not given).
- b) Pumps, compressors, refrigerationx installations, ventilators, airconditioning units, and industrial fittings (divisional director: Rieger)
- Intra-German trade (divisional director: Gebhardt).

3. DIA for Transportation Machinery (director: Loehr), with the following subdivisions:

- a) Transportation equipment and vehicles (divisional director not given).
- b) Tractors, building and wood-processing machinery, equipment for the glass ~~index~~ industry (divisional director: Soworka)
- Intra-German trade (divisional director: Noennigg)

These three new units are located at Mohrenstrasse 60/61 in Berlin, W 8. Their bank account numbers and telegram addresses are also given.

A further breakdown of the individual divisions and the names of the unit managers are also given.
